We have now added a **New 5-axis** router to our lineup in manufacturing, giving us the ability not only to increase volume on our standard products but also allowing us to offer new products: Curved Rake Rail, Ornate Baluster Panels, Knock-Down Stair Kits, or Fully Assembled Curves and Straights.

**Custom Curved Handrail and Ascending Fitting:**

We can provide curved rake rails and transitional fittings down to a 6" radius in most detailed profiles and down to a 4.5" radius with non-detailed profiles—curved transitional fittings (when your stair goes from straight to curved or curved to straight). We can also add custom plows widths and depths to the underside of our CNC rails allowing for square top balusters or to fit over a metal cap.

**Pre-fits:**

Is your curved staircase or metal cap rails already exist? No problem, let our team field laser measure and manufacture pre-fit CNC rail to match as built curved stairs and drop-over metal cap rails.

We also do custom iron panels, balusters & metal rails. So give us a call on your parts; we can help you get the job done, whether they're stock or custom.

We also offer a priming service for all of our products. Available in flat or gloss white finish.

## Finish Options

The process of **powder coating** involves applying dry pigments using an electrostatic process, then baking them on to create a lasting and durable, as well as **beautiful, finish.**

The products found in the following section implement the powder coating technique. When ordering, **please use the Finish Options Guide below.**

Please indicate the type of finish by using the following abbreviations:

- AN** = Antique Nickel
- B** = Flat Black Powder Coat
- SP** = Grey Speckled Powder Coat
- SAT** = Satin Black
- CV** = Copper Vein Powder Coat
- ORC** = Oil Rubbed Copper
- ORB** = Oil Rubbed Bronze

**Example: CS 16.5-5-B = Carolina Stair Flat Black Twist & Basket Newel**

# Olé Iron Slides™

With the advent of the adjustable iron slide baluster, the do it yourself person can now design and install their own balustrade. Using only a drill, screwdriver and an allen wrench, the adjustable iron baluster can replace your old wood spindles without the expense of a professional. Leave your wood rail and newels in place, remove the wood spindles and replace them with a wrought iron balustrade quickly and without a big mess. Presto, you have a new design flavor for your living area.

## Allen Wrenches Required: 4mm & 2mm

Ole Iron Slides™ is a trademarked and patented adjustable baluster owned by Carolina Stair Supply Inc.

### Patent No.:

7,614,612 B2    7,909,311 B2    D610,716 S    D637,315 S  
 8,418,335 B2    D614,477 S    8,978,337 B2

Scan this code to watch the video

Each baluster comes with loose ISSW in the package.
