# Space for **solutions.**

With the Decorative Collection 26+, we open the door to new possibilities. With innovative additions that build on the trusted foundation of our Decorative Collection 24+, this updated range offers even more ways to bring your design visions to life.

As your single source for decorative surfaces, EGGER is committed to delivering new and innovative high quality product solutions. Because all of our products are manufactured by us, our Decor Match System allows us to offer Thermally Fused Laminate (TFL), laminates and edge banding in a variety of colors, patterns and textures, all with a near flawless color match.

Combined with extensive trend research and an expansive array of digital services, EGGER's distributor partners, along with architects, designers and fabricators are guaranteed to always have access to products featuring the latest design trends and innovations to help inspire your projects.

Discover the full Decorative Collection 26+ with all the latest introductions.

# Digital Services

## Your Collection, on Your Schedule

All of our decors are at your fingertips, anywhere and anytime, with the Decorative Collection app. **Scan decor codes** from this guide to see the full boards, check availability information, create decor collections, design mood boards for inspiration and order samples with just a few taps.

### Visualize Your Ideas

Visualize your ideas in different room sets using our latest decors in the Virtual Design Studio.

This will give your customers a first glimpse of how their selected decors will appear in a room.

[to.egger.link/vds](https://to.egger.link/vds)

## myEGGER Customer Portal

Register for your myEGGER account to:

- Order samples online & check order status
- Download high-resolution decor images
- Opt-in to our newsletter for the latest news & product updates

[to.egger.link/myegger](https://to.egger.link/myegger)

## Ordering Samples is as Easy as 1-2-3

- Register for a myEGGER account
- Order your samples
- Get your samples fast and free!

Your free samples are delivered with free two-day shipping within the continental U.S., or free ground shipping to Canada. Quantity limits may apply.

[to.egger.link/samples](https://to.egger.link/samples)

## EGGER App

### Online and Offline

Find the information you need any time you need it, whether you're online or offline.

### Improved Scan Function

Get even quicker access to full decor scans and product availability information.

[to.egger.link/app](https://to.egger.link/app)

## BIM Files

Download CAD-compatible BIM files to easily visualize EGGER decors in your next project.

[to.egger.link/bim](https://to.egger.link/bim)

## Digital Availability Guide

Check product availability in our app, or download a digital availability guide.

[to.egger.link/availability](https://to.egger.link/availability)

# Product Portfolio

Our commitment to delivering innovative products you can trust and rely on remains constant. With our Decor Match System, you'll find colors, patterns and textures flawlessly carried across our product range. All of these products are manufactured by us, your single source for decorative surfaces.

# EGGER Decor Match System

## Matching TFL, Laminates and Edge Banding From a Single Source

When designing your project, the last thing you want to do is spend time sourcing your materials from different suppliers.

With EGGER's Decor Match System, you can get your Thermally Fused Laminate (TFL), laminate and edge banding all from a single source, without having to compromise on quality, color or texture.

With all of these products being manufactured by EGGER and in-stock as part of the EGGER Decorative Collection 26+, sourcing materials for your next project becomes more efficient than ever!

A modern interior space featuring a wall of vertical wood slats. A staircase with light-colored steps and a white wall with a gold handrail is visible. In the background, a mezzanine level has two chairs and a table. A sign on the wall indicates a 'Meeting Room' and an 'Exit'. The text 'What's New' is overlaid in a white box.

Brown Casella Oak  
H1386 ST40

Natural Casella Oak  
H1385 ST40

ST40 Feelwood Oakgrain features an innovative synchronized pore surface that follows the trend of elegant, reserved, and matte wood effects that replicate the style of a matte oiled veneer.

Now available in six variations, including two brand new decors, within the Casella Oak series.

Sand Casella Oak

# ST17 Omnipore Oiled

## Subtle Texture, Striking Authenticity

The ST17 texture adds authenticity to any design with its low-gloss finish and subtle microtexture. Its all-over pore distribution features varied sizes and depths, creating a natural, tactile surface that closely mimics the look and feel of an oiled veneer.

For a cohesive aesthetic, ST17 can be paired with matching laminates and edge banding to achieve truly seamless designs.

# Wood Reproductions

## With an Italian Flair

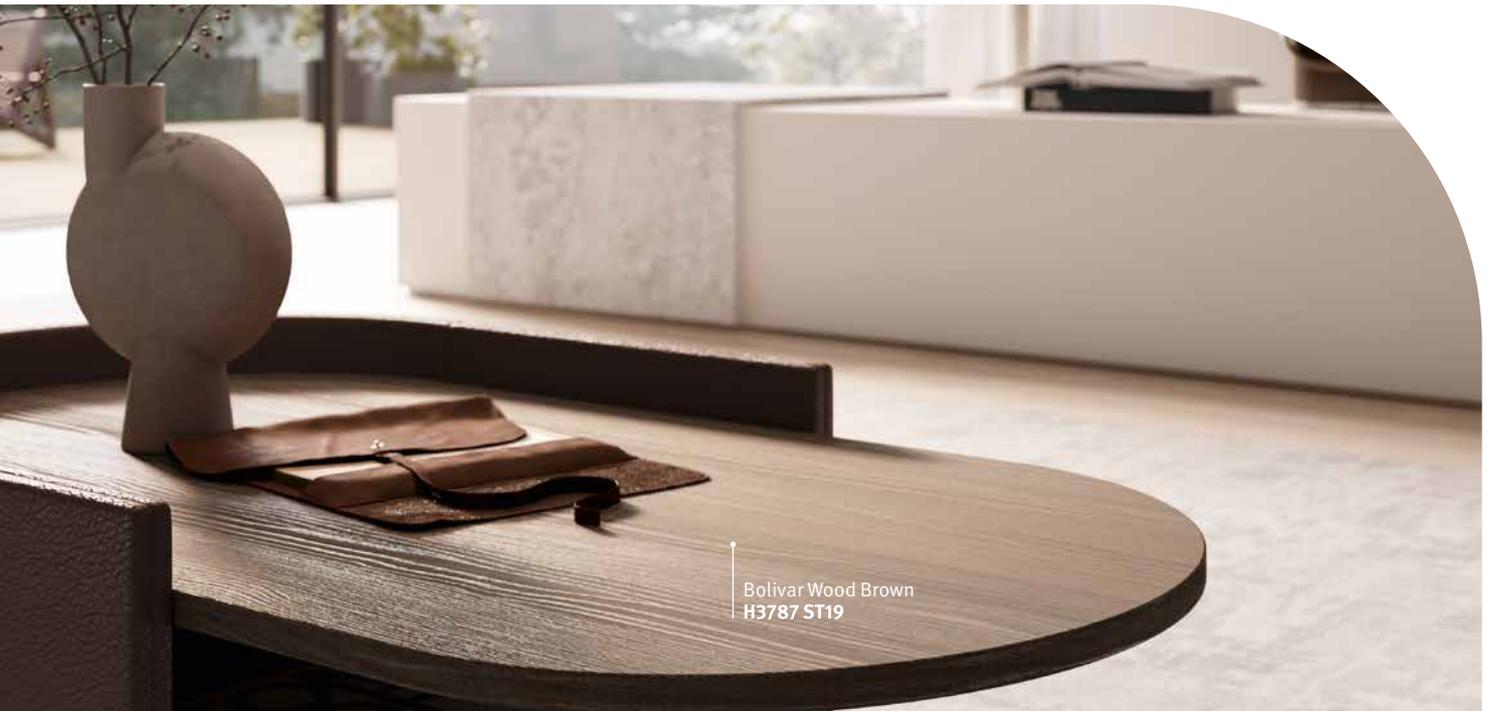

The Bolivar Wood decor series is inspired by wood from the tulip tree family and features a bold, flowing grain with light, wide-striped patterns that give it a unique and slightly exotic appeal. Its warm, bleached tones keep the look grounded and natural, making it easy to pair with solid colors from soft beige to rich caramel.

# Fresh Solids for Modern Spaces

## Softer, More Natural

New, softer colors from the EGGER Decorative Collection 26+ allow you to bring natural colors into any project.

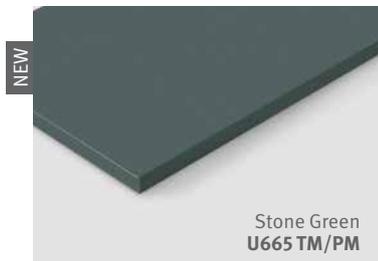

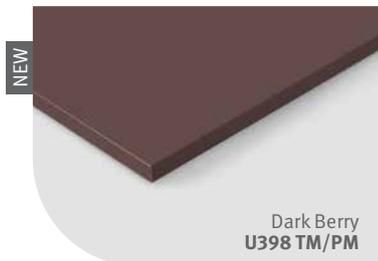

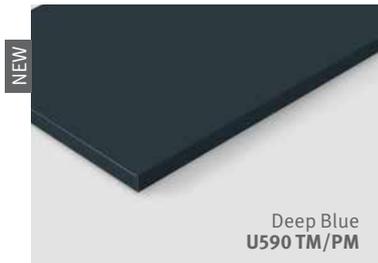

# PerfectSense<sup>®</sup> Lacquered Surfaces

## High-End Look, Smarter Core

With EDC26+, we've taken PerfectSense to the next level. The surface quality of our lacquered boards has been enhanced, as the TM9 PerfectSense Smoothtouch Matt texture evolves into the new **TM PerfectSense Matt** structure. This advancement delivers a smoother, more refined finish in line with the growing demand for premium matte surfaces.

We'll continue to offer your favorite decors while expanding the range to include **4 additional** options in this upgraded texture combination.

PerfectSense Lacquered Particleboard products combine the sophisticated appeal of matte surfaces with the practicality of a cost-effective particleboard core. This means significant savings without compromising on:

- Durability**
- Fingerprint resistance**
- Micro-scratch resistance**

# Retail Solutions

## Stylish, resilient surfaces

Our surfaces are designed to make an impression while standing up to the demands of busy retail environments. From display areas to shelving and counters, the collection combines visual appeal with long-lasting performance.

# EGGER Investment in North America

State-of-the-Art Particleboard  
Manufacturing Plant  
Opened in 2020

Built in Lexington, NC, the particleboard manufacturing plant with lamination capacities, is the company's first manufacturing plant in North America. Development and construction of the three-phase project began in 2018 with production beginning in 2020.

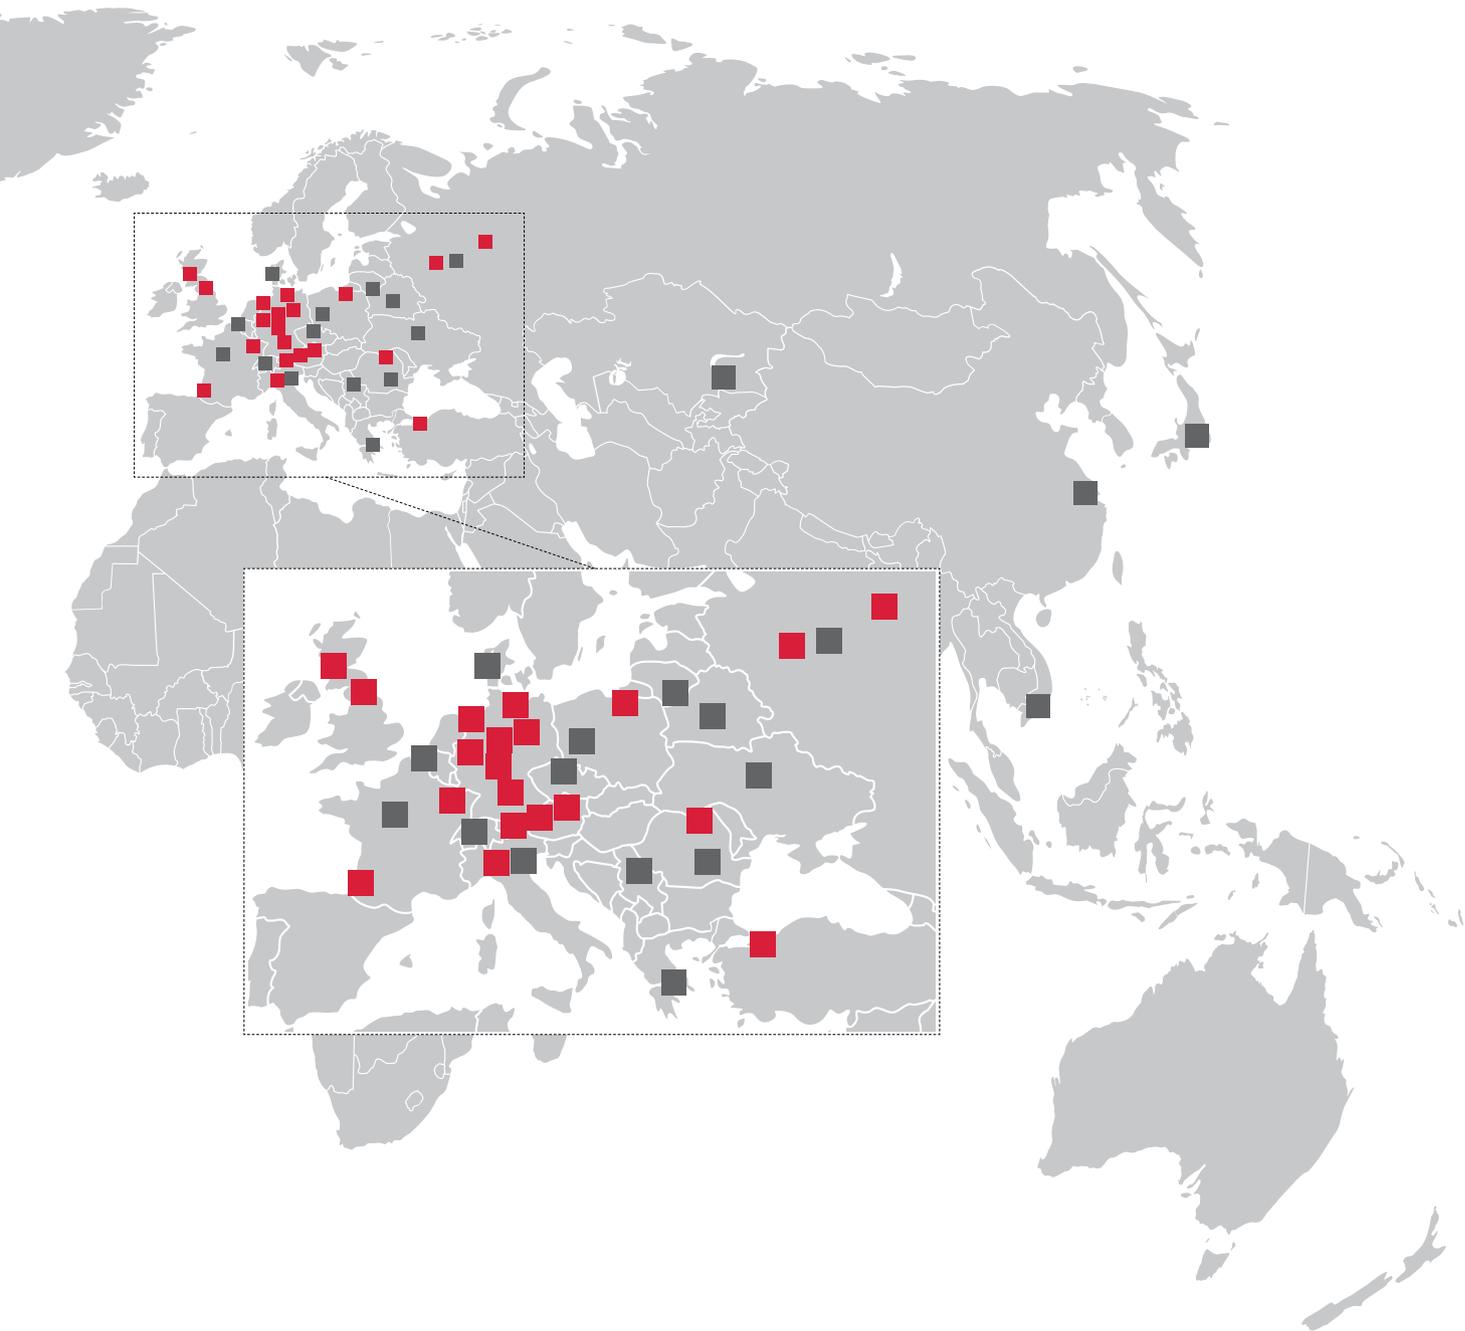

Once completed, the project will involve an investment of approximately \$700 million, while creating an estimated 770 direct jobs.

# The World of EGGER

A highly-respected family-owned business, The EGGER Group, headquartered in St. Johann in Tyrol, Austria is a leading international wood-based materials manufacturer.

Founded in 1961, we are a family-owned company currently with 22 production plants and approximately 9,600 employees worldwide.

# Sustainable Materials for Your Green Design Goals

It's hard to find a more unique  
and valuable natural resource  
than wood.

We are pleased to announce that a range of our products, including RPB, TFL, CPL and MDF door core one-sided TFL, are now available as **FSC® (Forest Stewardship Council® / FSC® C173943)** certified on request. By choosing to purchase the product certified, you are supporting responsible management of the world's forests. This certification reflects our commitment to sustainability, providing assurance that style, performance, and environmental responsibility are seamlessly integrated.

# Sustainability that is transparent.

[to.egger.link/sustainability](https://to.egger.link/sustainability)

Our EcoFacts illustrate how important sustainability is to us. They make the environmental performance of each individual product transparent and easy to understand.

Carbon footprint

Recyclability

Wood from the circular economy

Material from renewable resources

Wood from verified and certified sources

# A healthy home that you can rely on.

[to.egger.link/healthy-living](https://to.egger.link/healthy-living)

Indoor air quality is an important indicator of a healthy home. This is important to us, so we have our products regularly tested by independent institutes such as TÜV.

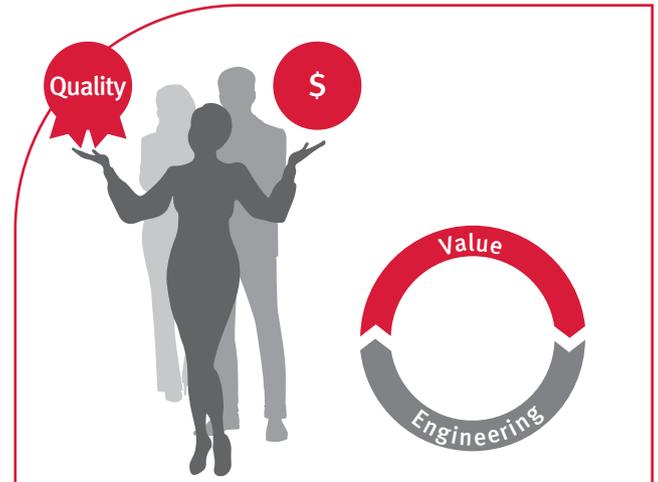

# What is Value Engineering?

Value Engineering offers a methodical, organized way of analyzing project requirements, including design concepts and materials, to optimize costs and maximize value, while maintaining the required performance, quality, reliability and safety over the life of the project.

## A Comparison: TFL vs. Laminates vs. Veneers

	TFL	Laminates	Wood Veneers
Deliver the look of natural wood	✓	✓	✓
Resistant to stains, scratches and fading	✓	✓	
Reproducible in color, pattern and texture years after installation	✓	✓	
Sealed, nonporous surface that is easy to clean	✓	✓	
Save time & money during fabrication as a finished panel	✓		
Resistant to buckling & bubbling from moisture exposure	✓		
Resistant to chipping & delamination	✓		
Material & fabrication costs	\$	\$\$	\$\$\$

Data provided by Nexis3, LLC (Rochester, NY) based on 11/2021 pricing information. Pricing represents estimated material and labor charges for 65 identical kitchens at 450 sq ft/ea.
