ultralight
duraply

Ultra-durable panel with XPS core for outdoor use

Glue type: Exterior

Emissions: CARB Phase 2 / US EPA TSCA Title VI certified

Face grade: BB/BB

Total thickness (")		5/8	3/4	1	1 1/2	2
48.5 x 96.5	Weight (lbs/panel)	28.5	29.2	30.7	33.7	36.6
	Packaging	65	54	40	27	20

Standard plywood skins: 4.5 mm total thickness.

Certifications on demand: **PEFC, FSC®**

HPL Finish available on demand

By overlaying the Ultralight panel with an HPL/CPL sheet, the thickness of the XPS core is reduced by 1 mm, so that the overall thickness remains unchanged.

Our laminate designs are not suitable for exterior use.

Please note that for HPL laminated panels the useful final size is 48" x 96".

Quick Ship items

We challenge the ordinary by making 3 simple promises:

1. All products in this brochure are available per ONE pack*, which creates an **easier sell** for you.
2. We keep you informed about the actual lead times of the product ranges**, so you can **inform your customers**.
3. We have Quickship items ready in stock for you**, so you can **quickly deliver your customers**.

* if combined with other products to full truckloads

** see page 2 for more explanation

The figures included in this file are for information purposes only and have no contractual value. The sizes, dimensions, thicknesses, packaging and number of plies may vary without previous notice based on new developments and technological advancements or market needs. The buyer is responsible for deciding whether the Garnica product is suitable for the desired application, and will be required to ensure that the location and way in which it is stored and used are suitable according to the manufacturer's instructions and suggestions, as well as its compliance with all applicable current regulations.
