FINE HARDWOOD LUMBER AND LAMINATED PRODUCTS

From sustainable
forests to Red Grandis
fine hardwood
applications

◀ Uruguay, South America

Red Grandis Tree Management

- Tree improvement program.
Objective: Improve Eucalyptus Grandis growth and performance by carefully selecting the trees.
- Proper soil preparation.
- Early prunings.

◀ Uruguay, South America

Red Grandis Quality Forests

- Pruning techniques at very early ages of the tree in order to produce clear lumber of high quality.
- Thinning techniques so as to achieve good dimensions.
- 20/22 years cycle.
- Year round harvest using ultimate technology.

◀ Uruguay, South America

Red Grandis Process

- Urufor has been operating since 1992.
- State of the art sawmill.
- Annual capacity: 360,000 solid cubic meters (logs input).
- Modern Kiln dryers reaching a capacity of about 12,000 solid cubic meters of lumber inside chambers.
- Smooth drying process where temperature, humidity and wood moisture content are controlled throughout the cycle.

The mark of
responsible forestry

Forest Stewardship Council™
(FSC™) certified since 2001.
