

400, 300 & 200 SERIES

A WHOLE NEW POINT OF VIEW.

It's more than a window. It's a whole new point of view. At Ply Gem Windows, we have a different view for the way the window business should be run. We believe you should have access to all of the top quality styles and brands across the country. That's why we've taken our entire portfolio of brands, brands that you know and trust, and given them one name – Ply Gem Windows. With this one name comes a lot of big advantages, starting with a national manufacturing and distribution network. Pair that with our commitment to customer service, sustainable practices and wide variety of window styles that fit all of your design needs, and you'll get the right window for every project and every budget.

And, because we're part of the Ply Gem family, you know you'll always have access to leading brands. Windows, doors, siding and accessories, stone veneer, fence and rail, rainware, shutters and designer accents, we have something for every project. We work with residential builders, remodelers, architects, distributors and dealers to help build sales. When you combine over 75 years of experience, industry-leading customer service, and trusted local relationships you've got a company you can count on. **Ply Gem. Building products. Building success.**

Uncompromising quality. Superior value. There's one clear choice when it comes to finding the quality and value you want in windows – Ply Gem Windows Pro 400, 300 & 200 Series. Our distinct product offerings provide you with the selection and craftsmanship you need to bring your next project to life. Our windows are designed to meet every need and every budget. Plus, with our service and support you'll be able to get the job done right the first time, every time.

A WHOLE NEW POINT OF VIEW.

400 DOUBLE HUNG

PRO SERIES 400 DOUBLE HUNG wood/composite windows bring out the beauty in any home. They feature paintable sash, sill and exterior components with the traditional look of wood and the weather-resistant benefits of cellular PVC. Choose from singles, twins, combinations, 30° and 45° angle bays, side lites, fixed and a wide selection of architectural shapes.

EXTERIOR DETAIL

FEATURES

- 1 Robust interlock design for enhanced structural performance
- 2 4 9/16" jamb eliminates extensive drywall work
- 3 With standard compression balance system both sash tilt in and remove for safe and easy cleaning of exterior glass (shown with optional Easy Tilt sash system)
- 4 Low-maintenance cellular PVC exterior components and brick mould ready to accept acrylic latex paints
- 5 Energy-efficient Warm Edge insulating glass
- 6 Traditional wood designed stile and rail construction
- 7 Cam lock provides security and enhanced performance
- 8 Sash made from low-maintenance cellular PVC components ready to accept acrylic latex paints
- 9 Foam-filled bulb weatherstripping on bottom rail creates an efficient weather barrier

The style. The features. The value. Our 400 double hung wood/composite units feature sash and exterior components made from low-maintenance cellular PVC to help increase performance and resist rot. They are optionally configured with our Easy-Tilt sash system, which makes cleaning your windows virtually effortless. Our selection of exterior casing options and simulated-divided-lite (SDL) provide a historically accurate look to help enhance the beauty of your home.

Traditional wood designed stile and rail construction

Cam lock provides security and enhanced performance

Robust interlock design for enhanced structural performance

FEATURES

- 1 4 9/16" jambs eliminate extensive drywall work
- 2 Both sash tilt in and remove for safe and easy cleaning of exterior glass
- 3 Low-maintenance cellular PVC exterior components and brick mould ready to accept acrylic latex paints
- 4 Bulb weather-stripping at top, bottom and pile weatherstripping at check rails for efficient performance and smooth, easy operation
- 5 Paint-free all-vinyl sash fusion-welded at the corners
- 6 Robust interlock design for enhanced structural performance
- 7 Dual action sash lock provides security and enhanced performance
- 8 Balances counter-balanced with quiet, adjustable springs for smooth up and down action
- 9 Energy-efficient Warm Edge insulating glass

Add durability and beauty to any home with our 300 double hung units. They feature paint-free all vinyl sashes for increased performance and convenience. And, when you upgrade to our more convenient Easy-Tilt sash system, cleaning your windows will be easier than ever. Our selection of exterior casing options and simulated-divided-lite (SDL) provide a historically accurate look to help enhance the beauty of your home.

300 DOUBLE HUNG

PRO SERIES 300 DOUBLE HUNG wood/composite windows combine durability with flexibility. They have an all vinyl sash that offers superior performance. Plus, they are available in singles, twins, combinations, 30° and 45° angle bays, side lites, fixed and a wide variety of architectural shapes.

A Paint-free all-vinyl sash fully welded at the corners

B Dual action sash lock provides security and enhanced performance

C Balances counter-balanced with quiet, adjustable springs for smooth up and down action

1. Available option. 2. HP glass option combines Low-E with argon gas fill for high performance.

200 DOUBLE HUNG

PRO SERIES 200 DOUBLE HUNG wood/composite windows combine historical looks with modern features. They're available in singles, twins, combinations, 30° and 45° angle bays, side lites, fixed and a wide selection of architectural shapes.

FEATURES

- 1 Low-maintenance cellular PVC exterior casing and brick mould ready to accept acrylic paint
- 2 Cam action sash locks with matching jambliner
- 3 4 9/16" jambels eliminate extensive drywall work
- 4 Both sash tilt in and remove for safe and easy cleaning of exterior glass
- 5 Energy-efficient Warm Edge insulating glass
- 6 Bulb weatherstripping on sash for air-tight performance and smooth operation
- 7 Sash and interior made with select clear wood ready for staining to match any interior décor – also available with primed interior for painting
- 8 Compression balance system for simple tilt-in cleaning of exterior glass

Style comes standard with all of our 200 double hung wood/composite windows. They are equipped with a tilt-in sash system that makes cleaning simple. The low-maintenance cellular PVC exterior components and brick mould resist rot and can easily be painted. A selection of exterior casing options and simulated-divided-lite (SDL) provide a historically accurate look to help enhance the beauty of your home.

200 CASEMENT & AWNING

PRO SERIES 200 CASEMENT & AWNING wood/composite windows combine modern features with historical appeal. Choose from singles, twins, combinations, 30° and 45° angle bays, side lites, fixed and a wide selection of architectural shapes.

FEATURES

- 1 Low-maintenance cellular PVC exterior and brick mould ready to accept acrylic latex paints
- 2 Energy-efficient Warm Edge insulating glass
- 3 Smooth-functioning operating hardware, concealed for a clean appearance and allowing sash to open beyond a full 90°
- 4 4 9/16" jambs eliminate extensive drywall work
- 5 Sash and interior made with select clear wood ready for staining to match any interior décor – also available with primed interior for painting
- 6 Concealed multi-point locking system, enhancing weather performance and security
- 7 Leaf weatherstripping on sash and bulb weatherstripping on frame for air-tight performance and smooth operation
- 8 Single lever for operating locking system

Don't just add locks; add value with our 200 casement & awning wood/composite windows. They feature a weather-resistant stainless steel hinge track and an adjustable hinge that ensures consistent and precise operation. The sash opens a full 90° for simple cleaning. Low-maintenance cellular PVC exterior components and brick mould help resist rot and are ready to be painted. A selection of exterior cladding options and simulated-divided-lite (SDL) provide a historically accurate look to help enhance the beauty of your home.

A Concealed multi-point locking system, enhancing weather performance and security

B Sash and interior made with select clear wood ready for paint or stain to match any interior décor

C Smooth-functioning operating hardware, concealed for a clean appearance and allowing sash to open beyond a full 90°

200 SLIDING PATIO DOOR

PRO SERIES 200 SLIDING PATIO DOORS are equipped with all the right looks and all the right features. They are available with matching side lites, fixed panels, transoms, segmented transoms and a variety of architectural shapes.

200 SLIDING PATIO DOOR

FEATURES

- 1 Full-perimeter weatherstripping for air-tight performance and smooth operation
- 2 Low-maintenance cellular PVC exterior brick mould with water-repellent preservative treated wood components are ready for acrylic latex paints
- 3 Natural wood ready for staining to match any interior décor – also available with primed interior for painting
- 4 4 9/16" jambs eliminate extensive drywall work
- 5 Energy-efficient Warm Edge insulating tempered glass
- 6 Adjustable rollers ensure smooth operation
- 7 Composite sill, combines wood, aluminum and vinyl for enhanced durability
- 8 Handle sets available in white, sandalwood and oil-rubbed bronze

Take your home's value up a notch with our 200 sliding patio doors. They feature a low-maintenance cellular PVC brick mould and water-repellent wood preservative treated exterior components that are ready to be painted. They are constructed with full-perimeter weatherstripping for a tight and consistent seal. Exterior handles are available with or without a keyed lock. A selection of exterior casing options and simulated-divided-lite (SDL) provide a historically accurate look to help enhance the beauty of your home.

Full-perimeter weatherstripping for air-tight performance and smooth operation

Adjustable rollers ensure smooth operation

4 9/16" jambs eliminate extensive drywall work

200 FRENCH SLIDING PATIO DOOR

PRO SERIES 200 FRENCH SLIDING PATIO DOORS are as inviting as it gets with low-maintenance features and stunning looks. Choose from matching side lites, fixed panels, transoms, segmented transoms and a variety of architectural shapes.

FEATURES

- 1 Energy-efficient Warm Edge insulating tempered glass
- 2 Low-maintenance cellular PVC exterior brick mould with water-repellent preservative treated wood components are ready for acrylic latex paints
- 3 Vinyl-wrapped foam-filled full-perimeter weatherstripping for air-tight performance and smooth operation
- 4 Natural wood ready for staining to match any interior décor – also available with primed interior for painting
- 5 Multipoint hardware available in a variety of finishes: bright brass, antique brass, oil rubbed bronze or satin nickel interior and exterior handle sets (bright brass shown)
- 6 4 9/16" jambs eliminate extensive drywall work
- 7 Composite sill combines wood, aluminum and vinyl for enhanced durability
- 8 Adjustable rollers ensure smooth operation
- 9 1 3/4" panels with wide stiles and rails for true French look

Give your home the extra touch it needs with our 200 French sliding patio doors. They feature a low-maintenance cellular PVC brick mould and water-repellent wood preservative treated exterior components that are ready to be painted. They are constructed with full-perimeter weatherstripping for a tight and consistent seal. Exterior handles come standard and a security foot bolt is also available. A selection of exterior casing options and simulated-divided-lite (SDL) provide a historically accurate look to help enhance the beauty of your home.

A Bright brass (standard) antique brass, oil rubbed bronze or satin nickel with matching hinge and strike

B Adjustable rollers ensure smooth operation

C Composite sill, combines wood, aluminum and vinyl for enhanced durability

FEATURES

- 1 Optional multi-point locking hardware with adjustable hinge option¹
- 2 Vinyl-wrapped foam-filled full-perimeter weatherstripping for air-tight performance and smooth operation
- 3 Low-maintenance cellular PVC exterior brick mould with water-repellent preservative treated wood components are ready for acrylic latex paints
- 4 Natural wood ready for staining to match any interior décor – also available with primed interior for painting
- 5 Multi-fin door sweep on operating panel
- 6 4 9/16" jamba eliminate extensive drywall work
- 7 Standard is no bore, single bore, or dead bolt bore without hardware; handle hardware available in a variety of finishes: bright brass, antique brass, oil rubbed bronze or satin nickel interior and exterior handle sets (satin nickel shown)
- 8 Energy-efficient Warm Edge insulating tempered glass
- 9 Composite sill combines wood, aluminum and vinyl for enhanced durability

Bring out the best in your home with our 200 center hinged patio doors. They feature a low-maintenance cellular PVC brick mould and water-repellent wood preservative treated exterior components that are ready to be painted. They are constructed with full-perimeter weatherstripping for a tight and consistent seal. Exterior handles come standard. A selection of exterior casing options and simulated-divided-lite (SDL) provide a historically accurate look to help enhance the beauty of your home.

EXPLANATION OF GLASS PACKAGES

PERFORMANCE COMPARISON

The lower the U-Factor, the greater the insulation value. R-Value is the inverse (R=1/U) of the U-Factor. Total Unit Factors determined per NFRC-100 (National Fenestration Rating Council). Chart shows relationship between performance and Ply Gem Windows glass package options, not including energy package upgrade.

LOW-E GLASS PACKAGES

Our Low-E glass packages combine Low-E and Warm Edge spacer options, providing insulating glass options to meet your specific needs. Our Low-E glass packages provide better performance in regions with hot summers and cold winters. Our Low-E glass packages can be combined with capillary tubes to address performance needs in high elevation applications.

Low-E — One lite of Low-E.

HP GLASS PACKAGES

Our HP glass packages combine Low-E with argon gas fill and Warm Edge spacer options, providing high-performance insulating glass options to meet your specific needs. Argon is a safe, odorless, colorless gas, which is heavier or denser than air. When used in conjunction with Low-E glass, argon provides better insulation. That's because heat and cold do not pass through argon gas as easily as through air. Argon is nontoxic and presents no human health or environmental concerns.

HP — One lite of Low-E and argon gas fill.

GLASS OPTIONS

- Low-E
- Tinted
- Tempered*
- HP
- Obscure
- Laminated (security)

* Tempered glass is standard on sliding patio doors.

NOTE: Contact your Ply Gem Windows sales representative for a full list of Pro 400, 300 & 200 Series glass thickness options and ratings.

WHAT IS LOW-E?

Low-E glass has a secondary, very thin metallic dual layer coating. This allows the sun's heat and light to pass through the insulating glass, but, at the same time, actually works to reflect radiant heat back toward its source. Since Low-E coating reflects radiant heat waves, it helps keep your home warmer in the winter by trapping radiant heat and cooler in the summer by blocking it from your home.

NATURAL LIGHT WITHOUT THE GLARE.

Ply Gem's Low-E glass has many advantages such as minimal visible darkening. Our glass minimizes interior glare, reducing eyestrain and making it easier to watch television or look at a computer screen when bright sunlight fills a room.

ENERGY STAR

ENERGY STAR® for Windows, Doors, and Skylights CLIMATE ZONE MAP
