

Reframing Innovation and Design

We explore design trends, listen to customer needs and expectations, and use our long history of innovation to bring you **the most versatile doorglass frame ever.**

Meet ZEEL®

A minimal design with endless opportunities.

ZEEL is a sleek, versatile frame designed to be stained or painted that blends seamlessly into the entry door, allowing the doorglass to take center stage. This **clean, low-profile look** offers an alternative to flush glazed doors that provides the benefits of a frame system with the style homeowners desire.

Traditional frames can warp when subject to severe temperature changes or direct sunlight exposure, especially when painted dark colors.

FiberMate Plus® is our strongest material yet and exceeds performance expectations in extreme environments.

Resolve® sealant is immune to squeeze out and doesn't degrade over time, reducing service calls and warranty issues. This clean thermoset foam seal can be repositioned and stays consistent over time.

ZEEL eliminates the need for screws and cumbersome screw hole covers with an innovative clip system. This allows each frame to sit flush, streamlining installation and greatly reducing installation time and effort. This efficient installation offers an alternative to costly flush glazed doors.
